Frequently Asked Questions

Q - Do I need to be registered with an NHS GP?

Not at all. No registration, no referral, no waiting list. Book online or give us a call — it's as simple as that.

Q - Can I get a prescription?

Yes. Our GPs can issue private prescriptions accepted at most pharmacies across the UK. Prescription costs are separate from the consultation fee.

Q - Will my NHS GP be told about my visit?

Only if you want them to be. Your consultation is entirely confidential by default. Nothing is shared without your explicit consent.

Q - Can you refer me to a specialist?

Absolutely. If you need onward care, our GPs will write referral letters to private specialists and can assist with arranging your appointment.

Q - How quickly can I get an appointment?

Same-day appointments are available subject to availability. Most patients are seen within 24 hours of contacting us.
